Asphalt Operations Safety Innovations Award
FOR MOST INNOVATIVE SAFETY PRACTICES

FINALISTS

ALLAN MYERS
Malvern, Penn.
Portable Crusher with Custom Safety Features
2018 NAPA Quality in Construction Awards
Earned by Pennsylvania Contractors

Overview
NAPA’s Quality in Construction Awards Program recognizes pavements constructed in sustainable and/or innovative ways. Each pavement has to qualify for an award in the Quality in Construction categories — Airport Pavements, General Pavements (under 50,000 tons), or Highway Pavements (over 50,000 tons). An optional section on the nomination form allows applicants to highlight the adaptability and sustainability of the asphalt used on the project. The Green Award (t) is earned by contractors for their use of sustainable practices in the construction of an asphalt pavement.

Asphalt Pavement Quality Awards

Judging Criteria

• Ride (Smoothness)
• Mix Quality (AC, No. 8, No. 200, PWT Bonus, etc.)
• Joint Construction (Longitudinal, Transverse, Bridge)
• Mat Compaction
• Innovative Features (SMA, GTR, Safety Edge, Crack and Seat, QC efforts, Fibers, etc.)
• Contractor Responsiveness

A suggested minimum size project is 2,500 tons of mainline placement. The materials producer and/or paving contractor on the project does not have to be a PAPA member.
