Date: February 27, 2017
Subject: 2017 PAPA Environmental Seminar

Once again, this year’s PAPA Environmental Seminar will be training you cannot afford to miss. As always, since last year there are a lot of updates to policies, specifications, standards, practices, permits, etc. that will be presented and discussed. In particular, there have been major changes in the Association’s Best Management Practices for Highway and Earthwork Construction. Since the Pennsylvania Department of Environmental Protection RAP General Permit has been discontinued, the association has done a lot of work with DEP to mitigate any possible concerns or issues from our members. This will be a large part of the morning’s discussion and we have invited a DEP representative to attend and answer any questions.

*We highly suggest all PAPA member companies send at least one representative to the environmental seminar.* Engineering PDH credits will be available for attendees.

Thursday – March 30, 2017
